DR. MARCOS ALGARA-SILLER
DIRECTOR OF THE ENVIRONMENTAL AGENDA UASLP
PRESENT

Dr. Algara-Siller

I write to inform you of the data requested from my office, regarding the compilation of the criteria for the GreenMetric international ranking.

6.1. Number of courses/subjects related to sustainability offered

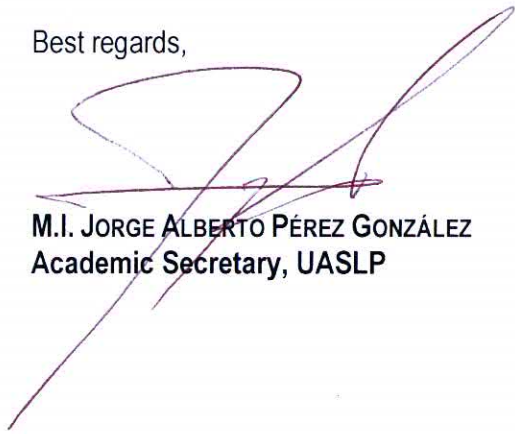

- This university has an educational offer for bachelor level that includes **99 professional majors and 1 technical degree**. Of the total educational programs, **7 have an explicit orientation to the study of environmental sciences and sustainability**.

6.2. Total number of courses/subjects offered

- It is also reported that our 100 bachelor programs are made up of 5097 subjects, of which **486 are directly related to environmental and sustainability issues**.
- Likewise, it is reported that there is a record in this institution of **27 academic bodies dedicated to the study of issues related to environment and sustainability** and that they are currently duly recognized by the National Council of Science and Technology.

I hope this information will be useful to positioning the sustainability efforts of our Autonomous University of San Luis Potosí high in the GreenMetric International ranking

Best regards,

M.I. JORGE ALBERTO PÉREZ GONZÁLEZ
Academic Secretary, UASLP
