Director of the Environmental Agenda UASLP
Present

Dr. Algara-Siller,

I write to inform you of the data requested from my office, regarding the compilation of the criteria for the GreenMetric international ranking.

6.1. Number of courses/subjects related to sustainability offered

- This university has **105 post graduate level programs**, of which **23 have an explicit orientation to the study of environmental sciences and sustainability**.

6.2. Total number of courses/subjects offered

- It is also reported that our **105 post graduate level programs** are made up of 2761 subjects, of which **493 are directly related to environmental and sustainability issues**.

I hope this information will be useful to positioning the sustainability efforts of our Autonomous University of San Luis Potosí high in the GreenMetric International ranking.

Best regards.
